Tips and Tricks:

Salt and pepper can be helpful for meals.

Jeans work best for work pants.

Bandanas are very helpful, but not required. Hats work very well.

A minimum of five shirts to change into in the evenings is recommended.

Start thinking of a God moment at the beginning of the week.

Ensure shower shoes are not slippery on wet surfaces.

Bring separate sandals/flip flops for wearing in the center during evenings.

Allow extra time in the mornings, before staff wakeup, to ensure enough time to get ready.

Always have your phone, after working, to check the time.

Bring a belt, most pants will be too big and you will need a belt to keep them up.

Always have a little bit of money with you, as you never know when it will be needed.

Write lots of people warm and fuzzies.

Bring a bag/caddy to the showers to keep all your stuff in.

Bring a bag for dirty laundry - dryer sheets really help to keep it fresh.

Water flavoring is allowed.
